What our Client's Think

Our People

Some of our Projects

Value Network is a specialist consultancy providing innovative value adding business improvement solutions and strategies to clients.

Value Network has established a reputation for excellence in service delivery. This is built on the belief that '*success isn't about doing things right – it's about doing the right things well*' (David McNicholl)

Our Approach

We work with clients to optimise their business outcomes in an ever-challenging climate by providing a range of business development, infrastructure investment and acquisition management consulting services. We are committed to delivering realistic and measurable outcomes for clients.

A key Value Network strategy is to work seamlessly with clients thereby facilitating smooth working relationships and service delivery

What our Client's Think

[Northern Beaches Council – Major Capital Works Procurement Review 2017](#)

Value Network provided a timely response to the brief ... quickly understood the requirements ... recommendations for future best ... The final report was comprehensive ... Executive Management of Council were very satisfied

[Infrastructure, Finance and Capital Works ACT Government – GC21 Contract Masterclass 2017](#)

Superior information on contract management principles provided by Value Network ... the case law provided was very relevant to the point being discussed and the key messages clearly explained to the training group

[State Water – State Water Wise 2012](#)

Value Network provided a quality and professional service and was able to relate effectively with all levels of the organisation in the execution of the engagement. I have no hesitation in recommending their services

[State Water 2010](#)

Value Network provided a professional, focused and flexible service. All consultancy services provided by Value Network were considered to be of high quality and value for money

[Road and Traffic Authority \(now Roads & Maritime Services\) 2010](#)

The staff at Value Network undertook considerable research to develop the procedure. The procedure developed was considered to represent best practice

[Abigroup \(NSW\) \(now Lend lease\) 2008](#)

Ted and his team not only provided the information we were originally seeking, but also were able to suggest better strategies for Abigroup to adopt to obtain the advice we were after. I and my senior management colleagues have benefited greatly from his insight and overall knowledge of our business

[Roads and Traffic Authority \(now Roads & Maritime Services\) 2006](#)

Value Network has extensive experience in procurement, contract management and dispute management and has extensive knowledge of construction and goods and services contracts. They have provided a timely, value added, value for money service to the RTA. Their outputs are well regarded

Our People

Ted Smithies, Director / Principal

B.Eng. (Civil) UNSW, Accredited VM Facilitator & Fellow of Institute of Value Management Australia

Ted has significant public and private sector experience in both strategic and operational roles. This is complemented by experience in business strategy, resource allocation and management, policy development, public/private partnerships, project feasibility / initiation, business cases, risk management studies, value management, probity, procurement, project management, contracting and supply chain solutions, client / stakeholder surveys, adjudication and dispute resolution

Rosemarie Risgalla, Director / Principal

B.Ec. (Hons) University of Sydney, MCom. UNSW

Rosemarie has extensive public and private sector experience and a high level of achievement in asset planning and management strategy, business strategy, policy development, business cases, procurement reviews, procurement services, project reviews / assurance and workplace relations. This is complemented by experience in team building, client / stakeholder surveys, adjudication and value management facilitation

Alan Griffin, Director

B.Sc. (Civil Engineering) UNSW, Grad. Dip. Admin SIT, FIE (Aust)

Alan has experience in the public and private sector at senior and executive levels. His experience covers probity, project management, construction / contract management, dispute management/resolution, project assurance, supply chain solutions, commercial and environmental stewardship roles. Alan's experience is complimented by time spent managing a number of business improvement, organisational and performance reviews into both state and local government issues and international projects advising clients on tendering and project management

Ron Hincks, Senior Associate

B. Commerce (Economics) UNSW

Ron is a Senior Associate in Value Network. Ron has more than 30 years' experience in economic and financial analysis and appraisals for infrastructure and related projects undertaken for a range of NSW and Australian Government agencies, Local Government and private developers

Voytek Kawecki, Senior Associate

Master of Engineering, Warsaw Polytechnic (Poland), Master of Engineering Science UNSW

Voytek is an expert in project based planning and resource modeling, designing of project control systems and strategic planning analysis. Voytek has over 30 years of commercial experience in Australian and International projects including the M5 East, City Link Tollway, Adelaide Desalination Projects, Hong Kong Airport Infrastructure and a number of Australian and international mining projects. Voytek has provided senior project planning services to TfNSW for Wynyard Walk, Wynyard Station Upgrade, Museum Station Upgrade and Barangaroo Ferry Hub. He is currently providing planning services for the Northern Beaches B-Line project

Chris Taylor, Senior Associate

Bachelor of Economics and Graduate Diploma in Environmental Studies (Macquarie Uni)

Chris has more than 35 years commercial experience providing economic advice on infrastructure (rail, dam, construction, water and sewerage). He has also undertaken a range of financial and economic appraisals; designed and implemented costing systems for the private sector, NSW Government and local government clients. Chris is experienced in program reviews, which have included a review of CityRail's value to the NSW economy

Alana Smithies, Associate

Bachelor of Science – Psychology, Macquarie Uni

Alana has planned and co-facilitated over 30 infrastructure / construction workshops. The workshops encompass project start-up, team formation and alignment, risk and value management. Major achievements include the development of stakeholder surveys that reengineered the Start-up Workshop process used on GC21 contracts. Since March 2015, Alana has been providing Project Coordination and Change Management services to FACS

Some of our Projects

The following examples are provided to demonstrate the breadth and diversity of our work and our success in assisting clients achieve their goals.

Barangaroo

Business Cases

- Barangaroo Reserve (Headland Park)
- Barangaroo Point Integration Works
- Central Barangaroo Stage 1
- Wynyard Walk
- Waranara Venue

Completed the business case and economic appraisal for each of the projects demonstrating the value of the project to government with minimum risk in the proposed delivery strategies

Successfully shepherded the business cases through the NSW Government Gateway review process

Majura Parkway

Risk Management

Undertook the following risk management studies, which included workshop planning, facilitation and reporting:

- Pre Construction Phase Risk Management Study
- Delivery Phase Risk Management Study
- Traffic Management Workshop

GC21 Start-up Workshop

Worked with the project team to establish / agree cooperative contract values, which included development of a pre workshop survey, workshop facilitation and reporting

Project Team Alignment

Completed team alignment workshop to identify and resolve issues, which were impacting on the contract relationship

State Library of NSW

Specialist Procurement Services

Digitisation of Library Collections

Established a panel of approved service providers to assist in digitisation of the Library's DS Mitchell collection and the WW1 diaries

Café & Catering Services

Managed the outsourcing of the café and the catering services for functions carried out at the State Library of NSW

RMS M5 West Widening

Project Management Support

Assisted RMS with development of M5 West Widening BOOT / PPP scheme to obtain the best value for money for the NSW Government. The deliverables included:

- Assistance with the assessment of proponent's PFP offer
- Development of RMS project plans
- Assessment of PFP proponents initial project plans

Shoalhaven River

Public Consultation: Water Supply Transfers and Environmental Flows Discussion Paper

Developed / authored the discussion paper for the Sydney Catchment Authority's public consultation process

Tallowa Dam Fish Transfers Business Case

Prepared the Business Case approval of the fish ladder and environmental flow works at Tallowa Dam

Probity Services

Parramatta City Council

Probity advisory services for the EOI for the sale of 169 Macquarie Street, Parramatta. The sale was a key part of the Parramatta Square project, one of the largest urban renewal projects in Australia

Transport for NSW – Probity Advisor Services Panel

Provided probity advisory services for a range of transport related projects

Jenolan Caves Reserve Trust

Procurement & Probity Advisor for tender of operator for Jenolan Caves Commercial Businesses

Harbour Control Tower

Reuse Options Assessment

Completed the independent Options Assessment Report as part of the Barangaroo Delivery Authority (BDA) planning submission for approval to demolish the tower

Review of the NSW Heritage Council's submission to retain the Tower

Prepared the response to the Minister for Heritage's request for comment on the NSW Heritage Council's submission. The NSW Government subsequently decided to remove the Tower

Sydney Metro North West

Project Definition Phase – Expert Panel Review October 2011

Managed, facilitated and reported the review by a panel of international and Australian experts. The aim of the review was to give confidence that the metro transport product met the needs of the NSW Government

Value for Money (VfM) Framework – 2012

Developed the VfM project concept which defines VfM in the context of the project objectives and established framework to demonstrate VfM achievement

Best Practice Procurement – Tools and Processes

Reviewed TransGrid practices and identified best practice tools / processes and recommended strategy to enhance TransGrid's business and procurement outcomes

AbiGroup Contractors
2011 Lend Lease acquired
Abigroup

Strategic / Business Planning

- NSW Civil Division 3 year Business Plan 2006
- QLD Civil Division 3 year Business Plan 2006
- Abigroup Northern Division (QLD) 3 year Mid Term Review Business Plan Review 2008
